WHAT IS HOPE?

A message from our Principal

According to the dictionary, HOPE is an optimistic state of mind that is based on an expectation of positive outcomes with respect to events and circumstances in one's life or the world at large. But in the Bible, HOPE is the confident expectation of what God has promised and its strength is in His faithfulness. A Christian's definition of HOPE is far more reassuring to that of the world. Instead of wishing or hoping for something to happen, a believer knows that their HOPE is solid, it is grounded in the Word of God and we know that God cannot lie (Hebrews 6:18 & Numbers 23:19). The Christian has confidence that what they hope for will actually happen and it gives them assurance about those things they cannot yet see. Where does your HOPE lie?
