

EXPRESSION OF INTEREST FOR ENROLMENT

At Geneva, we consider personal character, responsibility, respect and self-discipline as equally important as academic learning. We aim for students to learn and live by Biblical standards and to make worthwhile contributions to the school and wider community. These standards support traditional family values, moral principles, considerate behaviours and a truthful and gracious character. Therefore, we desire that families who join our school community are like minded and are willing to share in the Vision and Mission of Geneva. If you believe that this is you and your children, then we welcome your **Expression of Interest for Enrolment** and will contact you shortly to discuss this process further 😊

VISION – Students on the right path!

To be a school providing assistance to parents in directing their children on the right path toward intellectual, emotional, physical and spiritual growth.

MISSION

In realising our Vision, we seek to assist parents in their God given task of nurturing their children, preparing them for adulthood, equipping them for service and guiding them towards an understanding of Christian faith. We aim to do this by:

- treating each child as a unique individual
- developing in children the ability to fulfil their God-given direction in life
- motivating children to succeed
- providing qualified staff dedicated to training children according to Biblical principles and who recognise the great responsibility and influence they have in the education of children
- providing an educational programme and facilities to allow the effective education of children
- maintaining Godly standards by promoting a view of the world that comes from a Biblical understanding
- bringing glory to God in all that we do.
